

Talk About Small Business Specialists!

Are we certifiable, or what?

Microsoft's **Small Business Specialist** designation is for companies who employ individuals who know how to provide the **right answer** for small businesses. That means sometimes selling a lower-priced product or making no changes at all.

KPEnterprises is Sacramento's Premier Small Business Specialist

When we commit to something, we do it all the way. We don't have just one Small Business Specialist on staff—**We've got Four!**

- **Karl Palachuk** is a Small Business Specialist.
- **Manuel Palachuk** is a Small Business Specialist.
- **Thomas Williams** is a Small Business Specialist.

In addition to being certified in Windows workstations, Windows servers, firewalls, and more, KPEnterprises is also a **Microsoft Certified Partner**. That means we have access to the people and resources it takes to configure your systems right the first time and keep them running smoothly.

KPEnterprises has been in business for more than ten years. We'll be here to help when you call, with best-qualified technicians you'll find anywhere!
